

## Main Board - Components List

PCB Version: 1.1

| Designator | Quantity | Value                   | Description   | Footprint          | Comment   | Photo   |
|------------|----------|-------------------------|---|--------------------|---|---|
| R1, R2, R3 | 3        | 1K                      | Resistor  | 0805               | LED resistors   |  |
| R4         | 1        | 68K                     | Resistor  | 0805               | 1% tolerance, optional for Batt   |   |
| C1         | 1        | 1uF                     | Capacitor   | 0805               | optional for Batt Monitor   |   |
| LED        | 1        | RGB LED 3528            | Common anode  | 1210               |    |   |
| RJ1, RJ2   | 2        | RJ45                    | RJ45 Connector  | 8P8C               |   |   |
| MCU        | 1        | ESP32 Development Board | Based of ESP32 WROOM 32 (single or dual core: ESP32-S or ESP32-WROOM-32 or ESP32-WROOM-32D) | 30 or 38-pin board |  |   |
| MISC       | 1        | Header                  | Male Header, 40-Pin   | 2.54mm             | Break according connectors on PCB   |   |
| MISC       | 2        | Header                  | Female Header, 40-Pin   | 2.54mm             | For ESP32, break according connectors on PCB.   |   |
