

- HC-05/06 BLT module are available in different versions. They must be able to communicate at 1.3 Mbaud. Performances may vary.
- C4 can be 47-100uF low voltage (eg 6.3V) to match the 0805 dimension. No need to be polarized.
- C5 may be 1uF to increase bandwidth at lower frequencies (<100Hz).
- All resistors 1% tolerance, 0805 dimension.
